

CERTIFICATE OF EVIDENCE
(ENFORCEMENT OFFICER) SECTION 146 (3)
SPEED AGAINST A HIGHWAY SIGN

Violation Ticket Number
Court Location
Disputant's Name
<i>The data in the shaded portion is for internal administrative purposes only.</i>

I, (name) _____ ,
am an enforcement officer within the meaning of the *Offence Act*. I am also the
(job title) _____ at the Regional Transportation
Management Centre (RTMC) of the Ministry of Transportation and Infrastructure
in British Columbia (the "Ministry") and, in that capacity, I have personal knowledge
of the Ministry's Variable Speed Limit System (VSLS) and the Ministry's record-keeping
pertaining to it. For the purpose of providing evidence of an offence under section
146 (3) of the *Motor Vehicle Act* and pursuant to section 15.3 of the *Offence Act*,
I certify that:

- the VSLS uses electronic variable speed limit signs placed within variable speed limit corridors to display maximum speed limits based on information relating to weather and traffic conditions. At the start of each variable speed limit corridor, a static sign advises drivers that they are entering a variable speed limit corridor and indicates a maximum speed limit unless otherwise posted;
- an electronic variable speed limit sign is a regulatory Maximum Speed traffic sign erected or placed in accordance with section 146 (2) of the *Motor Vehicle Act* and conforms to the Motor Vehicle Act Regulations;
- the RTMC assigns a unique numeric identifier and segment name to each electronic variable speed limit sign and keeps records in relation to all electronic variable speed limit signs placed on highways, including records of the maximum speed limit that each electronic variable speed limit sign displays at any given time;
- the RTMC records indicate that on (dd/mm/yyyy) _____ at (time) _____ ,
an electronic variable speed limit sign with the unique numeric identifier
(unique identifier) _____ and segment name (segment name) _____ ,
was in place on (highway) _____ at or near
(city, place or town) _____ in the Province of British Columbia
and was visible to drivers travelling (direction of travel) _____ ;
- the RTMC records also indicate that between (time) _____ and
(time) _____ on the above indicated day this electronic variable speed limit
sign displayed a maximum speed limit of _____ kilometres per hour;

- f) attached to this certificate is a copy of a verification report produced from the RTMC records in relation to the electronic variable speed limit sign; and
- g) the following is a description of the data found in the verification report attached to this certificate:

Data	Description/Explanation
Heading	• includes the unique numeric identifier and segment name of the sign the report relates to • the last letter(s) in the identifier and segment name indicate the direction of travel along the corridor the sign applies to (e.g., “N” and “NB” indicates northbound)
Date reported	• the date and time the information set out in the report was received from the sign
Status	• “operational” indicates the sign is working properly • “connection error” indicates there is an error in communicating with the sign • “has alarms” indicates the sign is transmitting an alarm signal
Sign text	• indicates the speed limit displayed on the sign at the applicable date and time
Displayed message	• indicates the pixels illuminated on the sign at the applicable date and time
Details	• indicates the date and time the new speed limit was displayed on the sign
