

Notes to Part 3

Functional Statements

A-3.2.1.1.(1) Listing of Functional Statements. The numbered functional statements are grouped according to functions that deal with closely related subjects. For example, the first group deals with fire risks, the second group deals with the structural properties of piping materials, etc. There may be gaps in the numbering sequence for the following reasons:

- Each group has unused numbers which allows for the possible future creation of additional functional statements within any one group.
- There is a master list of functional statements covering the three principal By-law Documents – the Building By-law Book I (General), Building By-law Book II (Plumbing Systems) and the Fire By-law – but not all functional statements are pertinent to all By-laws.
